

Dear CIA:

Here are crime tips about international terrorism involving U.S. citizens.

The #1 female violent sex offender with permanent residence in France is a woman I nicknamed "Ava." She is the woman in France who has sexually molested the highest amount of children. "Ava" committed her first sex crime when she was 25 years old in 1999. She is 43 years old now. She has spent time in prison but not for sex crimes.

Between 1999- 2018, "Ava" has sexually molested 113 different children with direct contact.

(There is some overlap in crime victims with these time frames: Between 1999-2009 "Ava" sexually molested 32 children. Between 2010-2018, "Ava" sexually molested 83 children.)

"Ava" was born in France on September 20, 1975 in the Southeastern section of the country, in a small city renowned for its baking flour.

"Ava" has had the same day job working as a school administrator for a pre-school and kindergarten for about as long as she has had residence in the city she currently lives in. The name of the school she works at is named after the city of her residence, Cote de Coere.

The definition of "children" I am using is persons under 14 years old.

"Ava" sexually molested a child surviving human trafficking for the first time in 2010. "Ava" began trafficking children in 2010, and has worked as a trafficker from 2010-2018.

"Ava" has broken the federal laws of France for conspiracy to commit murder and murder. "Ava" has committed conspiracy to commit murder four times between 2013 and 2017 on her brother, whose children she has never molested but wants to.

"Ava" broke the federal law of France for murder upon her own 4 year old child in 2013. This child died from neglect, from starvation and dehydration. The coroner was bribed and lied about the cause of death. If the child's body is exhumed, a coroner who refuses bribes and intimidation can determine the true cause of death.

"Ava" has committed conspiracy to commit rape on 12 adults between 1999 and 2015, but she did not rape any adults with direct contact.

Between 2010-2018, "Ava" has trafficked 236 children. She has had permanent residence in the same city for at least six years. Her total roundtrip driving time for delivering children to customers of human trafficking is less than 2 hours. More than 50% of her customers are millionaires.

From 2010-2018, "Ava" has participated in human trafficking by delivering children to customers who sexually abuse them, then she returns the children to their residence after the molester is finished. More than 75% of her customers are politicians.

From 2010-2018, more than 22% of "Ava's" customers were United States politicians with jobs in the White House and the national Congress at the time the children were delivered to them to be terrorized and abused. Currently, Donald Trump is one of "Ava's" customers of human trafficking. There are 6 justices on the U.S. Supreme Court that are participating in human trafficking, and they are also "Ava's" customers.
