

STATISTICS ON HUMAN TRAFFICKING WITHIN  
THE NATIONAL SECURITY AGENCY OF THE UNITED STATES

First, I would like to preface this information with my statement about how incredibly difficult it has been to get anyone to believe me, which is why I have chosen to take the route of publishing to the public, in hopes that someone out there will take this seriously. I have reported corruption within the FBI and NSA to several people in Congress, several state Attorney General's Offices, Child Protective Services agencies in different states, several non-profit organizations, several family and friends, and no one believes me.

15-16% of NSA agents are participating in human trafficking within the United States in 2018.

The National Security Agency currently has over 43,600 full-time employees as of May 1, 2018.

In the year 2018, 28% of NSA agents have children.

13-14% of NSA agents have children who have been alive in a body on this planet for less than 16 years in 2018.

Out of the roughly 5,800 NSA agents with children under 16 years old in 2018, 76-77% of them are participating in human trafficking in the United States by trafficking their children.

In 2018, there were 4,429 NSA agents who trafficked their children within the last six months. 100% of them currently have both Sexual Sadism Disorder and Pedophilic Disorder as defined by the diagnostic criteria of the DSM-5.
