

PEACEFUL WARRIORS FOR HUMAN RIGHTS

Dismissal Card

You are dismissed from this meeting because you have been identified and outed as a person who perpetrates sexual violence upon others. People with an agenda of sabotage and abuse of trust towards this group are not allowed to attend this meeting.

Feel free to:

- Ask over and over, “But how do you know?” and attempt to induce self-doubt and insecurity in the person asserting their boundary
- Berate the person who called you out and feign righteous indignation over “false accusations”
- Pull the psych card and ask if the person who called you out has ever seen a psychiatrist and by chance did they stop taking their meds
- Go the sympathetic route and act like the person who asserted their boundary is damaged from past trauma to the point of losing discernment, pretending like they are an abused dog who cannot differentiate friend from foe
- Loudly proclaim to anyone who will listen or post all over social media how some crazy delusional person wounded you with slanderous and false accusations in an attempt to publicly humiliate the person who called you out

Be assured, none of these time-honored strategies of serial rapists and bullies will be effective at allowing you to gain permission to attend any of our meetings, nor will they discourage people who are anti-sexual violence from attending.
