

CRIME TIP ON MASS MURDER PLANNED TO BEGIN DECEMBER 23

Today, September 11, 2018 more than 1.6 million people committed felony conspiracy to commit murder, poisoning, assault, rape and kidnapping on a total of 6,237 crime victims for crimes planned to begin on December 23 in Seville, Spain.

The co-conspirators include all the elected officials of the Democratic Party of the U.S., all the police chiefs in the U.S., about 36% of the County District Attorneys, and all the licensed psychiatrists with employment at county hospitals in the U.S.

The felony conspiracy to commit kidnapping, poison, assault, and rape is based on a plan to illegally detain a total of 5,000 U.S. citizens sent to the psychiatric departments of county hospitals at a rate of 48 people per day beginning on December 24.

The mass murder is planned to take place on 1,237 citizens of England surviving human trafficking in Seville, Spain. The method of murder is poisoning with the "stinky drug" over a period of 66 days; they will be raped while dying a slow painful death.

All the employees of Oregonians Against Human Trafficking (OATH) participated today in planning this mass murder and the trafficking of U.S. citizens within psychiatric departments of county hospitals.
