

## "SILVER"

The man I nicknamed "Silver" is a licensed psychiatrist who has illegally diagnosed the most people with schizophrenia in this lifetime. Falsifying medical records is a felony crime. "Silver" was born on July 18, 1952. He first received his license to practice psychiatry from a state medical board in the U.S. in the year 1992.

Since 1992, "Silver" has illegally diagnosed 2,747 people with the mental disorder of schizophrenia. None of these 2,747 people he illegally diagnosed had schizophrenia as defined by the diagnostic criteria in any of the DSM books. Out of the 2,747 people "Silver" illegally diagnosed with schizophrenia, he committed felony rape as defined by the federal laws of the U.S. government with direct contact upon 98% of them in this lifetime.

"Silver" has committed felony child sex abuse with direct contact upon 5,752 children in this lifetime; more than 94% of the children he abused were permanent residents of the United States at the time he committed sexual molestation upon them, and more than 83% of the children he sexually abused were surviving human trafficking in the context of permanent residence in a group foster home.

Today, on September 8, 2018, "Silver" broke the law against conspiracy to commit murder, poisoning, rape, and assault on 58 crime victims he intends to commit these crimes upon. There are 63 co-conspirators who committed felony conspiracy when planning these crimes with him today. This felony conspiracy was based on a plan to murder 17 people through a bus crash they would all be travelling together upon, and to poison, assault, and rape their children that same day the parents died. The crimes are planned to take place September 12 in Los Angeles County.
